causes which lad to the civil war there is no medical so good as to obtain an insight into the state of the couttern mind of that parted; and its state of the couttern mind of that parted; and for this service, this is the most valuable work that has yet appeared. The importance, errors and parsions of the south of the anti-war period are fully revealed; and the peontiarity of this book is that they are revealed by a man who fully believes in them still. Such a book should not be received with impatience, but welcomed as a contribution to the study of history. Some of the reviewers scold and cen denounce the author for being a Bourbon; that is, for being a man who has learned nothing from those tremendous events in which he has himself borne no inferior part. Nothing has himself borne no inferior part. Nothing

We are shown by this book how the southern people were made to believe that though they people were fighting for separation they were never-theless sighting for the constitution; that the country, the McKay logther-sewing though they were fighting for vlavery they were nevertheless eighting for iborty. These shoes made in this country with the Messay indeed are beginning to appear as inconveived machine, which has been in fine since 1866, is put down at 500,000,000. Nine-triths of all indeed are beginning to appear as inconversa-hie deliasions, paradexizal, abourd, and important of serious consideration. But at every stage of history we have to deal with things of this kind. The mind of millions is often as instant. The mind of individuals; only the been not less than \$1,000,000 a year. Anyone individual mind often fails to learn wisdom who wishes may now make and use the mawho wishes may now make and use the mandle persists in error to the last, while the mind of millions, when it takes a wrong direction always at last corrects itself. Of this don'de truth the case of Jefferson Davis and that of the southern people, at large affords a striking illustration. As an individual he is a striking illustration, as a people they are progressive. Where he was twenty years ago there he remains, and from that standpoint he strikes a boars. From the position they ided them to who have the position they ided them to who have the position they ided them years ago, they have passed on, and few of them trouble themselves to read the book written by floor chosen choof from their common standpoint of aventy-divergence ago. > We are displaying this week the most elegant variety of entirely new designs in Uringes, Tassels, Gimps and Grnaments that has ever been shown by any house on the Pacific coast. In ombre and shaded goods we have special novelties which cannot be elsewhere obtained at any price. No lady who confemplates making or trimming a handsome dress cloak or dolman can in justice to herself neglect inspecting our exquisite Follection, and ascertaining our very reasonable quotations for the handsomest goods in the line.

The goods will be neatly displayed upon our center tables this week in sample lines, and we shall be very much pleased if you will call in to acquaint yourselves with the coming styles.

As productions of art they are well worthy the admiration of all lovers of the beautiful. In checks and plaid ribbons -all widths, all combinations and all qualities---our assortment is immense. The satins and brocades to which we call your attention are all the leading season's shades in New York and Paris. We claim to move step by step with these cities in style and prices, and not one remove behind them. We urge nobody to purchase; we urge everybody in their own interest, to inspect the
